Tennessee Will Act on Suffrage Soon

WOMEN RALLY HOPE FOR O. K BY SPECIAL SESSION

FAVORABLE ACTION ON
AMENDMENT IS CON-
SIDERED LIKELY.

ONE STATE NEEDED

Ratification Is Considered Vital
to Place Feminine Ballot
in Election.

(BY ASSOCIATED PRESS.)

Nashville, Tenn., Aug. 9.—The legislature of Tennessee meets in special session today to consider ratification of the federal woman suffrage amendment, and suffrage advocates hope to complete the list of 36 states necessary to enthranchise the women of the nation.

Delay by Gov. Roberts in issuing the call for the special session which was not sent out until Sunday, because of the necessity of first holding elections to fill 13 vacancies in the senate and house, made it probable that absence of a quorum would prevent a regular session today. In this event, an adjournment until tomorrow was expected to be taken to permit members from distant parts of the state to reach the capitol.

PRO-SUFFRAGISTS ARE CONFIDENT OF VICTORY

(BY ASSOCIATED PRESS.)

Washington, Aug. 9.—Pro-suffragists led by Mrs. Alida C. Smith, received pledges from enough legislators to assure a majority in the senate and house of the Tennessee legislature, according to telegram to headquarters here of the National Woman's party. The latest poll, taken this morning, the message said, gave the ratification forces a majority of 3 in the house and one in the senate.

U. S. REACHES NO AGREEMENT ON AID TO BE GIVEN POLES

Washington, Aug. 9.—Although press dispatches today indicated that the gravity of the Polish situation was increasing, there still was no indication that the American government had decided to accept the proposals for aid presented by the Polish government or the tentative program for helping the Poles outlined by the British and French governments.

No announcement was expected pending the outcome of the conference between Premier Lloyd George and M. Miller, British Ambassador, between Washington and London, and Paris still are continuing, but officials maintained silence as to their purpose and also as to the views of President Wilson developed at the recent conference he had with Secretary Colby and Under Secretary Davis.

The special note outlining the political situation in Poland which the foreign office at Warsaw was reported to have dispatched to Washington had not been received today either by the Polish legation or the state department.

Official advices received today indicated that the invasion of Russia by the Poles had resulted in uniting forces, present, at least, the divergent elements in Soviet Russia. Some military experts pointed to this as an explanation of the rapid success of the bolsheviki against the Poles.

The soviet armies were reported in these advanced, having become nationalistic in character, and the soldiers were seeking re-enlistment in the soviet forces.

More friendly relations also were reported established between the soviet government and the peasantry.

INDIANS WILL VISIT HARDING AT MARION

Marion, Ohio, Aug. 9.—Political conferences with local republican leaders from various parts of the country occupied most of Senator Harding's attention today, although he began preliminary work between times on the speech he will deliver here Friday to members of the Ohio Republican Editorial Association.

A delegation from the Society of American Indians were to have called today, but the appointment was postponed until tomorrow.

The nonresident plans to make no formal address to them. Among those with whom he is to confer tomorrow is Will H. Fays, the national chairman.

HUNT FOR SLAYER OF BARBER CONTINUES

Madison, Aug. 9.—The hunt for the slayer of James Singer, barber shop proprietor, whose body was found in a stone quarry near the city last Sunday, continues. Special deputy sheriffs and city detectives have been assigned to the case. One suspect was released after being quizzed as were two men, who were believed to have seen Singer a few minutes before his death.

Street Car Men Vote to Return
To Work With No

(BY ASSOCIATED PRESS.)

Chicago, Aug. 9.—Two men were wounded, one perhaps fatally, during a revolver duel between a policeman and a bandit on a speeding street car early this morning. The robber fighting as he backed off the car continued in the darkness. Apparently he was in charge of William Zulli and William Barrett.

The victims of the spectacular battle were the motorman of the street car, Frank E. Payel, 30 years old, and William Barrett, a pedestrian, who was struck by a stray bullet as he was standing on a corner watching the termination of the duel.

HARDING AND COX COMING TO THICK OF SPEECH EXCHANGES

(BY ASSOCIATED PRESS.)

Dayton, O., Aug. 9.—Preparation for his speech making tour to the president's campaign, Cox and Harding "came to blows" today, while the democratic vice presidential nominee, Franklin D. Roosevelt, was being formally notified at Hyde Park, N. Y.

The first address of the governor next Thursday at Camp Perry, Ohio, in presence of the governor-elect, for whom the competition is expected to deal with the league of nations and also rehabilitation of ex-service men.

That Gov. Cox and Senator Harding, his republican opponent, soon will be in the thick of exchange of political火力, was also announced by the democratic candidate.

The soviet armistice was reported in these addresses, having become nationalistic in character and the soldiers were seeking re-enlistment in the soviet forces.

More friendly relations also were reported established between the soviet government and the peasantry.

GROUND ALIVE FOR OPENING OF FAIR TOMORROW

LAST TOUCHES BEING PUT
ON EXHIBITIONS AND
BOOTHES.

EXPECT BIG CROWD

Indications Point to Biggest
Affair of Kind Ever Held
Here.

The fair grounds are in one big
turmoil for preparation for the opening
of the Janesville fair tomorrow.

Coney Isle red hot vendors, trinket
sellers and side show managers are
putting up their booths in expectation
of huge crowds. Over two dozen refresh-
ment stands are already erected
and the ferris wheel will be up
by Tuesday morning. Stock and
poultry entries are being brought in
rapidly. The poultry exhibit of

The commission was asked to issue orders guaranteeing the car supply for the movement of the grain crops.

Food Shortage Predicted.

The spokesman said indications
are that the 1920 crop would equal
that of 1918, and that failure to move it to market not only would ruin the
growers, but would seriously affect
the remainder of the country.

J. J. Murphy, state, railway
commissioner for South Dakota,

declared that the railroads of the
northwest had only 60 per cent
of their cars on their lines and that
20 per cent of those were unsuitable
for grain loading. One of the difficulties the
roads face in supplying cars, he said,
was that they did not receive a car for
a dollar's worth of pay.

Ask for Box Cars.

As a remedy for the situation

in the northwest, Mr. Murphy suggested
that the commission order box cars to be sent in

large numbers, which have more than
100 per cent of their ownership.

One P. B. Jacobson of the Minnesota
Railway and Warehouse com-
mission, declared that 100 box cars
would be needed to move the grain estimated
at 750,000,000 bushels.

Irish Archbishop Is
Landed in England,
He Goes to London

Coming of Mannix Surrounded by Deep Mystery; Consternation

Is Rife as to Whereabouts of Noted Churchman Who

Was Passenger on Baltic.

(BULLETIN)

Penzance, England, Aug. 9.—Archbishop Mannix was landed here

as a passenger on a destroyer this afternoon. It was stated he intended

proceeding to London.

The archbishop declined to give out a statement. He expected to

leave on the first train for London.

Archbishop Mannix landed from the destroyer in a motor launch and proceeded to the railway station where his baggage was examined by a customs officer.

From the railway station the arch-
bishop went to the house of Canon
Wade, the Roman Catholic priest in
Penzance, remaining there some time.

It is understood here that the
Archbishop Mannix is at liberty to
travel where he pleases. There are
two detectives in town, who presumably
are keeping him under observation,
but they are not interfering in
any way with his movements.

It was reported this afternoon that
the archbishop would go by train
direct from Penzance to London.

ERSTWHILE RICH
HAVE HARD TIME
LIVING THESE DAYS

Berlin—How the erstwhile well-to-do live in present day Germany is described in the Allgemeine Zeitung, an elderly high state functionary, a married man with a family, who says that although he belongs to the upper 30,000 in Prussia, according to the income tax schedule, his style of living is reduced to that of a plain laborer.

He now owns a fine mansion in a fashionable Berlin suburb, he writes, "but we have been obliged to let four rooms furnished, and will have to restrict our own apartments still further."

Before the war we breakfasted on eggs and bacon, white bread and butter and tea with cream and sugar; now we have to content ourselves with thin gruel, black bread, no butter or sugar, and the nondescript 'official' jam.

"Only once or twice a week does me appear on the dinner table; never a pint, wine has been abolished. Supper consists of porridge, herrings or cheese. Before the war the family used seven pints of milk daily; now a quarter of a pint is the allowance.

We are worn threadbare; my son wears my shoes and my daughter cuts my hair.

"Letter writing has become too expensive. I tear off unused half sheets of letterhead and use old envelopes, instead. Baths are cut down to one-half."

"We can no longer afford to entertain company to meals; we meet our friends after supper."

The present lean times, the writer confesses, have not impaired his health very much, although he says he has become "somewhat spare in body."

PRESSING NEED FOR ACTION.

With the completion of the foundry at the Samson Tractor plant and the starting of the furnaces in a few days, another forward step is taken in the industrial growth of the city. More men are required and in consequence more houses. Janesville is still slow on the house building program. There seems to be little activity either in the auxiliary movements for financing home building. These are not pleasant facts, but they are facts nevertheless. The Building and Loan Association organized in the spring should have ten times the number of stockholders. If a decided and concerted effort were made this form of investment of small amounts would certainly attract the investor, who naturally prefers to see his money invested at home than in building up some outside industry.

"Manana" may be all right for the tropics, but it is not valuable as an asset in Janesville.

REAPING THE THISTLE CROP.

The republican party of Wisconsin is reaping the crop of thistles it sowed when it fathered the absurd and vicious primary law of the state, made it a partisan, and then provided no restrictions on party lines or party participation. Denouncing partisanship, it made it impossible to carry on a primary without party lines defined in name only. Therefore we have the spectacle of candidates for nomination in the republican party appealing to voters to take part in it who are

Opposed to Harding and Coolidge.

Members of the Committee of 55.

Nonpartisan Leaguers on a platform without a clause pledging support to any republican, but insistently denouncing the republican party.

On a platform selected by the republican national convention overwhelmingly.

On record, as delegates to a national convention voting no in making the nomination of Harding unanimous.

Socialists when it comes to an election, but take part in republican primaries.

Democrats seeking republican division.

Members of all the elements opposed to stable government under the constitution, openly for the glorification of the proletariat and the Russian program of destruction and confiscation of property.

Pro-Germans who place affiliation with the forces of the Fatherland against America and have no hope in the success of the loyalty candidates.

This time to have corrected this nefarious law was when the legislature was in session in 1919. No effort was made then. Men seeking office now sat in that body and are reaping the thistle crop in their candidacy. It is possible that the effort would have failed. The socialist members would have voted against it, others who expect to reap success by the primary law would have opposed an honest law because an honest law would keep them out of office. In other states it is necessary for a man to declare that he intends to support the republican ticket, at least the bonds, before he is permitted to participate in a republican primary; and other voters to declare affiliations if they vote the primary ticket of another party.

Not so in Wisconsin. One can cheer for Lenoir, curse Harding, hurrah for Cox, swing his hat for Berger and vote for Thompson in the primary, and none can say him nay.

CANDIDATE ROOSEVELT'S NICE SPEECH.

"Nice" is the word for Candidate Roosevelt's speech of acceptance delivered today. It neither points a moral nor does it adorn a tale. Words and sentences which have stood the effacing hands of time, words tried in political speeches by surly youth, Sevres ware and Dresden China words, from the shelves of the five foot libraries, are numerous. As one reads, he unconsciously looks into the cerulean blue of the immobile sky and under the soporific influence of the Roosevelt words, sees there turreted castles, with gargoyle pencils in silver light, changing with kaleidoscopes rapidly into fringes of lambent violet and rose, dark gray recesses cut into the masses of cumulus cloud sky banked and dream-made, and then from the hasheesh state one emerges to hear Mr. Roosevelt say, "The good old days are gone past forever; we have no regrets." * * * The democratic program offers a larger life for our country, a richer destiny for our people.

That is about all there is to it; a dream castle destiny; and there isn't a staggard unladylike sentence in Mr. Roosevelt's speech. It took Homer Cummings who told Mr. Roosevelt that he was nominated, to furnish the peevishness about the league of nations, to warn America that she is going to the disastrous discard if she does not get into the European scrap, and if the republican party still insists that she stay America and be not absorbed into Europe. Mr. Cummings says that "the material and moral leadership of the world is lost" to America. "The democratic party is unconquerable in its hold on the truth" that America belongs to the world."

There are some persons who, however, are of the opinion that the great destiny of America is to make America, and instead of belonging to the world, is the property of the people of the republic.

"Europe on the verge of war" is a general headline. Nothing new. Europe is always on the verge of war.

The world is safe. One of the signs is that people take interest in things other than political. A few days ago the Gazette printed an item concerning the lotus flower in a pond near Edgerton. Since, the news has traveled far. It has been reprinted in scores of newspapers. "Kudos" are driving to Edgerton to inquire where the flowers may be found. The people who have a love for these

LINES FOR AN AMERICAN.
Great Lakes, Ill., Aug. 9.—Uncle Sam is entertaining over a thousand American youths at vacation camps this summer. The vacation camp for sons of the wealthy has already become a regular institution of our summer life. Hundreds of parents pay a large sum of money to send their boys to private camps during the summer where they will receive plain food, plenty of regular exercise and a wholesome amount of discipline. This summer the navy has invited any high school boy of sixteen or over to become a temporary sailor, and spend six weeks on his summer vacation at a naval training station, with all the advantages of a vacation camp and none of the expense. In fact he is paid the same wages as an apprentice seaman, \$33 a month.

JUST FOLKS

BY EDGAR A. GUEST.

I hold to this: My country needs the very finest of my deeds. On me forever she depends. To be the staunchest of her friends; If I desert, then to her name I bring a touch of needless shame. She trusts me wherever I be. And by that trust has set me free: I speak her thoughts, for in her schools I learned to know her code of rules, And what in me is good or ill. Strangers translate into her will. I face the wide world as man. I stamped with the brand "American"; From what I am and what I do. My country shall have judgment, too; Therefore, straightforward I must be. That she may meet no shame through me.

A LITTLE SLICE O' LIFE.
We had often marveled At the greatness of Lincoln, But not until recently Had we heard it analyzed. A small child of a neighbor, Now, tell us, what a great man Abraham Lincoln was! "Gee," he said, "it's no wonder Look what he had to make him great: He had that log cabin, He had that pine knot, He had those hills to split, He had that tall plow hat, He had that Civil war to win, He had that Gettysburg speech, He had everything. To make a man great, And look what I have got! Not a darn one of these things."

A prominent porcelain bath-tub manufacturing house advertises as follows: "Don't wait until Saturday night." There are apparently some new thoughts in the bath tub business. It is a new idea they have evolved, but it may be worth trying.

Who's Who Today

WILLIAM M. CALDER.

William M. Calder, the junior United States senator from New York, is a native of Brooklyn, where he was born on March 3, 1867. He was educated in the public schools and then followed in the footsteps of his father. He constructed 3,000 houses in Brooklyn and served as building commissioner there in 1902-3. He was elected to the state senate in 1904 and served as representative of the sixth New York district until the close of the sixty-third congress in 1914. In 1916 he was elected to the senate, receiving 82,314 votes to 60,633 for William McGurk, democrat. His term will expire in March, 1923.

Even in lean republican years Mr. Calder always has received a generous vote. The last four years he was the only republican representative from New York. In the 1912 election he was the only republican elected to a seat in the suburban part of the state. Calder retired from the house at the end of the sixty-third congress to enter the republican senatorial primary, running against his present associate, James W. Wadsworth, Jr. He made a remarkable run, carrying Orange, New York by a plurality of more than 35,000, but lost the nomination every day through the heavy vote cast for Mr. Wadsworth in the western part of the state and in Albany county.

Senator Calder is a director of the Lawyers Title and Trust company and of the Realty Associates of New York City. He is a member of various commercial associations and athletic clubs.

OPINIONS OF OTHERS

FREIGHT RATES AND PRICES.

There will be great dependence upon protection by the Department of Justice to keep the rate increases from being reflected in goods prices. The law is a puny protection against economic movements up and down. Mr. Lauck, the "miners' cost expert," consistently argues that the increase of rates is the chief cause of the increase of wages. But, however he thinks, ought to come out of profits and the charge upon the consumers ought to be infinitesimal. So rail road presidents argue before him. There is no real proof that profiters would be glad to cover increases of prices with the mantle of the rate increase; and that many will seek to do so. Who ever asked him if he has a right to feel that his intelligence is insulted? Railway rates are reckoned in miles. They reach the dignity of cents only on cases, carcases and carloads. Countless articles are sold with national advertising at the same prices everywhere, regardless of distance. Many articles are made from a basing point, freight added. They and the retailers know to a fraction what the addition is. They are bold who dare to add the freight on a case of shoes to each pair, or on a lamb's carcass to an order of chops in a restaurant. Buyers who endure that extortio are simple and foolish.

Mr. Gould, the song leader who teaches the rookies to warble in unison for half an hour daily, is also loud in their praise. He says that they will accomplish as much in their six weeks' training as the average recruit accomplishes in three or four months. This is partly because they are held to a strict diet, and partly because they are so young. We hope that the naval summer school will be a permanent feature of the navy, congress willing."

GIRLS, HOME PLAN GAINS STRENGTH

Chamber of Commerce Members Show Great Interest in Civic Project

The Chamber of Commerce lunched at the Grand hotel at noon today to accomplish its purpose—it aroused in the hearts of the 100 men and women who attended, an earnest desire to carry to completion the proposal that home for girls be established in Janesville.

A formal endorsement was given the plan by speakers representing four organizations—Miss Mary Barker, Women's Federation; Robert J. Cunningham, American Legion; Stephen Bolles, Chamber of Commerce steering committee; and Dr. W. R. Rotondi, former president to the discussion. Mayor T. E. Welsh gave a resume of the Tidewater congress which he attended at Detroit two weeks ago.

Expressing pleasure over the spirit shown by men's in backing the girls' home movement, Miss Barker said:

"Women Will Help."

"I have no doubt now but what the project can be carried through successfully. You may be assured of the hearty and cordial cooperation of the women."

"The lack of care for our girls reflects upon each individual in the city. We have tried at various times during the past 15 years to get the plan under way, but always we have stuck on the rocks—shall it be a girl's club or a Y. W. C. A.? This must be decided first of all. Whenever it is the federation will back it."

"Come on, boys! Let us Americans let's do all in its power to put it across." We are interested because of our sisters and sweethearts," he said. "Secondly, all service men have resolved to work for the betterment of their communities."

Plain Table Meeting.

Hunting at conditions which may become worse unless immediate action is taken on the proposed Mr. Bolles declared it a shame that Janesville has never done anything definite to establish place for girls.

"The next step the steering committee has is to hold a big promotional meeting and say, 'We want to gather all items, say out on a definite program, and go ahead.' The Chamber of Commerce is determined to see the thing through."

Similar thoughts were expressed by Mr. Markham, speaking for the Rotary club. He mentioned the interest the Samson company has in the plan.

\$500 Is Available.

A. E. Matheson, chairman of the Welcome Home celebration committee, said he believes the \$500 surplus realized on the big day, October 8, might be turned over to the fund for the new project.

Prior to the speeches, Miss Katherine Scholter gave a declamation: the Chamber of Commerce quartet sang; and the entire gathering joined in singing "On Wisconsin."

Women who attended were: Mrs. Daniel Webb, Mrs. Ed. Wilson, Mrs. A. M. P. Owen, N. L. Sage, W. V. Welch, M. O. Mount, W. H. Judd, P. E. Buss, George H. Cullen, H. H. Faust, Charles Sanborn, C. E. OLDEST HORSEMAN IN U. S. HERE FOR FAIR THIS WEEK

With his long white curls and wide sombrero, M. H. Trask, said to be the oldest horseman in the country, is in Janesville to enter his set of year-old mares in the Janesville fair races this week.

Trask is a picturesque, friendly old man in his eighty's whose father was one of the leaders of the rush to California for gold in 1848. He has roamed all over this country, Canada and Mexico. He says almost ever since able to sit up he has astride a horse.

"And many's the rough old boy I've made come to think I need to do exhibits with him in the big round ring, and you know till I got too old, that's when I took to harness horses and I think I have one of the finest little mares that ever was in harness. Me and her's pretty good friends. We travel right along together."

At the time he stroked his

gray pony young and strong.

Yes I'm pretty darned old in years but I ain't feelin' a bit older than most of the boys. I drive my own horse in most of the races, and just yesterday I was knocked down, my cart and all, over by another cart. They picked me up for me, and I must say I got myself brushed off I up and ran the other three-heats. That was all I smashed."

CHANGES NEEDED IN TRAIN SERVICE

(Milwaukee Journal.)

Now that very material increases in railroad rates, freight and passenger, have been made, the Milwaukee and Northwestern railroads should without any more loss of time improve their passenger service in Wisconsin.

The first thing need is modern service between Milwaukee and Madison—the state's metropolis and the state's capitol.

The distance is a little less than that between Milwaukee and Chicago, but the run consumes a third more time. On an average it takes three hours or longer.

On each trip there should be a fast train every day—one of them leaving Milwaukee in the morning on one line and the other in the afternoon on the other line.

A fast train out of Milwaukee in the afternoon which would call at Beloit, Madison and Beloit in the afternoon would be exceedingly convenient.

Between Beloit and Milwaukee and between Janesville and Milwaukee faster and more comfortable service is needed.

Chicago is excellent service in all points. Milwaukee gets milk train service.

Passenger service on the northern division of the Milwaukee road, which includes Beloit, Hartford, Mayville, Beaver Dam, Waukesha, Ripon, and Berlin, is much what it was a year ago. All these

things require better service. The nearer points on the division need a train that will bring passengers in Milwaukee by 9 o'clock every morning.

The Association of Commerce will doubtless be glad to move in the matter. The commercial bodies of the other communities can be depended upon to join the campaign.

COUNCIL TO VOTE ON G. M. PETITIONS

Seven Streets Expected to Be Declared Vacated—Election Questions Up

City councilmen at their bi-weekly meeting at 8 o'clock tonight will act on petitions filed by General Motors company to have seven streets vacated. Six of them run through the Samson-Tractor company's property in Spring Brook. They are: George place, Elliott street and James place, all running east from Alphonso place to Mc Key boulevard; and Champion street, Viney street, and Alphonso place.

The seventh one which is sought to have vacated is School street, from River street east to Rock river. It is expected the company will present its agreement to the council when it meets again.

Because women will vote, the councilmen tonight will be seated in the city hall, fire stations and other institutions. The school board will be here working on the election from some time with the same dissatisfaction results.

With General unable to guarantee a supply, the outlook appears dark to officials. The next step is a conjecture. A general discussion is expected at the council meeting tonight.

The time for submission of bids ends at 8 o'clock this evening.

RAIN IS BOON TO CROPS IN COUNTY; MORE IS NEEDED

Questions Up

Showers early Sunday morning and in the afternoon hitting to the northeast, east and south of the city, and also in the city itself, did great help to the parched farms, but reports received indicate corn and tobacco were aided considerably. However, it is said that off set the extreme dry spell which has been felt here for the past few weeks.

The temperature has taken a considerable drop since Friday mercury standing at 82 at noon today.

Questions Up

"She had been missing quite a little and jumping along and I was just speeding up to see if she wouldn't run right," Alden Richards explained when arraigned in municipal court today on a charge of speeding on Court street Sunday night. The rest was made by Officer John Barry who followed him in the police car.

Richards was fined \$15 and costs and was severely lectured for his attitude in court.

REGISTRATION DAY FOR VOTERS

Questions Up

Marine, Aug. 9.—Douglas Miller, aged 59, employee of the Sawyer-Goodwin company is dead as the result of a fracture with Edie Rasor, night watchman of the company, which occurred Sunday evening. Rasor is in the county jail awaiting the results of the coroner's inquest late this afternoon.

It is alleged that Miller was approached by Rasor and told to leave the company's premises. A dispute or some kind followed and a son of Miller, Dexter Miller, who came running to the scene, attempted to get Rasor to help him. Claims that Rasor had Miller down on the ground and was choking him.

The son also alleges that when he approached, Rasor pulled a gun and ordered him off the premises. The father then arose and while being assisted to his home by the son, fell over.

Rasor is a retired business man who was in the saloon business for a time and later in the wholesale grocery business. He denies that he choked Miller.

DOCTOR OPERATES TO REGAIN YOUTH

Questions Up

Chippewa, Aug. 9.—Dr. Serge Voronoff, noted French surgeon, who claims to be able to rejuvenate old persons by transplanting to them the intestinal glands of monkeys, performed his first operation of the kind in the United States here today.

The operation was on animals, and not humans. Several hundred doctors attended the clinic.

Dr. Voronoff probably will not operate on humans while in the United States, he said, because of the shortage of desirable specimens of anthropoid apes from which to take the glands.

THE UNIVERSAL CAR

*The Most Popular Car on
the Market Today*

*Right Now is the
Time to Buy
Your Ford*

For when the demand comes in the fall it will be impossible to get immediate delivery on a Ford car.

Last fall many prospective purchasers were unable to secure a Ford car after having had their orders on file for months. The situation will be exactly the same this fall.

Salesmen, Doctors, Real Estate Dealers, Professional and Business Men are rapidly learning the advantages of a closed car. Closed cars are becoming very popular with the Fair Sex who take pride in driving and owning their own Ford Sedan or Coupe. The all weather, year round car pleases them all, and fits their pocketbook.

LOW FIRST COST—LOW MAINTENANCE—
COMFORT AND PLEASURE—LOW
DEPRECIATION.

You will find all models of the Ford Car at the big Automobile Show, Janesville Fair, with Salesmen in attendance.

Crippled Pitching Staff Causes Sammies to Split

By George McManus.

Fail to Hold Five Run Lead Saturday and Lose 10-8; Take Second 6-4

Chicago, Ill., Aug. 9.—Samson Tractors of Janesville divided with the Pyott Foundry team of Chicago here over the weekend, losing Saturday 10 to 8, and winning yesterday 6 to 4. Heavy hitting in both games was the outstanding feature.

Three pitchers were used by the Samsons against the Yotts on Saturday. Jock Wooten started the game and lasted two innings. Slim Walsh then took the box and remained on the mound until the last of the sixth when Smiling Bill Lathrop finished the last three frames.

It was a tough week for Will, for he went back in again Sunday and beat the Pyotts. His pitching was steady again, but, and except for a little bad luck because of errors by the Sammies he would have twirled a shut-out game Sunday.

The hitting of the Janesville boys is coming along in great style. What department is strengthening rapidly and if the "Tractors" were as good in the pitcher's stat, they would be winning more constantly. However, Manager George is looking around for material. Breckinridge was hitting in great style until he received a bump yesterday by one of the flies being caught. At that time he had made eight successive hits in the last few games. Capron is coming along in good shape, his two base hits being a regular happening now. Saturday, Perring came across with a three bagger.

Saturday's game was a hard one to lose. With the last half of the fourth the Samsons led by five runs 4 to 1. Then things commenced to blow up. And the Pyotts drew up and the score 8 to 8 in the eighth. In the last half of the ninth, the Chicago club hammered on another couple when a home run was made with one man on the bases.

Breck's catch of Debus' line drive on Saturday and his throw to Schwindt to complete a double play, was a feature.

Wednesday noon, the Samsons will leave Janesville for Chicago on their way to Racine, Wisconsin, to play the Houghines. On Friday they will appear at Vandalia. On Saturday and Sunday, Janesville's favorites will play against the Staleys at Decatur, Ill.

Mondays evening, Perring will attend meetings of the Industrial League at the Auditorium annex here and later of the Chicago league at the Sherman house. Matters of importance to these wheels are to come up.

The Diary of an Engaged Girl

by PHILLIPS

NEWS OF THE ELOPEMENT

STUNS MRS. EDMONDS.

As I phospheled, the hue and cry has been raised, because of sister Laura's elopement. (See, how that word does thrill the heart of a woman?)

The hue and cry descended in the form of Mother Edmonds plus Father E. Early this morning.

Fortunately for my part I had just left the house and was far on my way to my office when it was telephoned, but our local telephone system is by the way always very quietest when least wanted.

I found me at my place of refuge, and mother let me know in an agitated voice that my future lawless were at our home then, and very much perturbed at the disappearance of the family daughter.

I said a little as I could on the phone, I knew that an argument would follow, and that I would go all hell up and unfit to work, so after mumble something about being sorry, and too busy to talk about time, and about doing my best to come home early in the afternoon, hung up the receiver (which I acknowledge is a dirty trick) and went back to my drawing board.

It was 4 o'clock when I arrived home, bearing the evening paper which was filled with the caricatures of Morgan and Laura. There I found Mother Edmonds prostrated, and waving a telegram back and forth in a bewildered sort of way, to the accompaniment of my own mother's sympathetic groans.

"To think that my flesh and blood should play such a trick on me, to think it! And how I have watched over that girl! And, as for that wretched man—well they have made their bed—and all the other things that outraged parents usually say when under stress of mind.

It was in this part of the harangue that they spied me, and with a wild flourish of her telegram of forgiveness from her crying child. (to be continued.)

Heart and Home Problems

A. E. ELIZABETH H. THOMPSON, Thompson, in Care of the Gazette.

Dear Mrs. Thompson: I am 34 years old and have been married 14 years.

My husband is giving me more trouble than I can possibly stand much longer. We were happy together and had such good times until another woman came in between us and broke up our home.

He spends every minute of his spare time with her and gives me all of his money. I guess he never gives her a cent. Now I get nothing—not even money to buy necessary things for the children. I have to do all the work, even the washing, and I wring. We never get to ride in our automobile because he has put every chance horse away from the office.

He has talked, cried and begged him to do better; but he gets angry and tells me to tend to my own business and let him alone. My children are dead and have nowhere to go or I would leave him. I can't work or account of my baby. I have no one to leave her with.

What would you advise me to do?

A WORRIED MOTHER.

Consult a lawyer. It can probably be arranged so that your husband will have to give you a fair portion of his income. Divorce is possible under the circumstances, but I do not favor divorces. The chances are he will tire of the other woman and will turn back to his family. As a mother he must maintain the home, since he is working and able to do so.

Do not worry about the lawyer!

Last Call for Summer Frocks

To me and read this telegram which Laura had sent her:

"Morgan and I married yesterday in New Haven—see Lindsay for particulars. Taking the buck with valiance, won't it? But I did not mind, for I knew that Laura would do the same for me at any time."

Of course there was nothing to do but sit down and give a fair and detailed account of the wedding and explain how suddenly it had come, for it seemed to be about about the most unimportant trifles, after all.

For instance, the fact that she had not been present at her daughter's nuptials did not seem to worry her half as much as she thought the said daughter had been inclined to actually to bring her along in an old dress. Her very oldest? And after all the plans she and Mr. Edmonds had been making for the ungrateful child's wedding, despite the fact that she was marrying out of her sphere—a wretched aristocrat and all that! None whatsoever. Laura had defied the conventions and was therefore an ingrate and outcast.

Poor, dear, happy little bride! My heart flew out to her. My new-found happiness, and I was glad that she had avoided all the pangs and agonies of a fashionable wedding, after all.

We finally managed to soothe Mrs. Edmonds, and when she finally left she had promised to send a telegram of forgiveness for her crying child.

(to be continued.)

Shops are now heralding the last of the summer frocks. A few weeks more and the summer of 1920 will be over as far as wardrobe concern. There is still time to pick up a few bargains in frocks for vacation time, and to those women who have not yet gone on their vacations will be able to buy very pretty dresses for a mere fraction of what the June and July vacationers had to pay. One good thing about the frocks of this season is that there are many of them which have not plenty of material in them to permit remaking.

GIRL STUDENTS AT COLLEGE DON'T LIKE USE OF LATCH KEYS

Edinburgh, Scotland.—The young women students of the University of Edinburgh have revolted against what they regard as "childish" restriction in the use of latchkeys after the regulation was issued for closing the hall in which they live.

Thirty-three students of Masson hall, one of the numerous hostels in which women students reside, have gone on record as refusing to obey

instructions regarding the use of night keys. The girls assert that they are being treated as children rather than as young women well able to take care of themselves. The protest resulted in a petition to the warden of the hall. The view of the management is that too much liberty was given the girls under the previous regime, and that unless they obey the rules they will be forced to leave the hall at the end of the session.

"The Pall Mall Gazette of London in commenting on the incident says: 'With the merits of the particular case we are not concerned but there is a principle involved which sooner or later will have to be decided.'

HIGHWAY WORK HOLDING ITS OWN

Organization in Road Improvement Reaches High Stage

Madison, Aug 9.—Though handicapped by inability to obtain materials, the second quarter of this year is recorded by the highway commission as one of the best in vision. Organization has reached a high stage and, as conservative policy, the evils of the foreseen delay were minimized. Maintenance work is continually improving the average conditions of roads, even of construction proper has been withheld.

Prudent Praise
"We Wisconsin had not, in 1918, adopted the present policy of patrol maintenance of all main highways," says the commission. "There is no doubt that the condition of many of our principal roads would now be absolutely intolerable. Reports from many other states indicate that many highways in them are practically impassable, worse than previous years. While our main highways continue at least to hold their own."

Hard to Get Supplies
Investigation of local supplies are being conducted by the commission. Transportation is becoming more and more of a problem so that soon road contractors may have to develop local pits and quarries, or shut down operations.

In second quarter statements on 14 separate jobs, aggregating \$1,116,600 and a length of 56.34 miles, were submitted to the federal government. In the first half of the year contracts were awarded by arrangements to construct by day laying 58.77 miles of concrete roads. The cement situation, however, is critical. Cement companies have no plenty of supplies, but can find no means of transportation. Fees

Auto license fees amounting to \$3,146,250.75 were paid into the office of Secretary of State Merlin Hull during the year ending June 30. Since Jan. 1, license have been issued for 1,308 automobiles, 152 trucks, 7,434 motorcycles and 594 dealers. New registrations are coming in at the rate of 10,000 a month.

Milwaukee county paid the highest amount—\$42,453 for auto licenses. Dane county was second with \$147,479. Florence county paid the smallest amount—\$2,700.

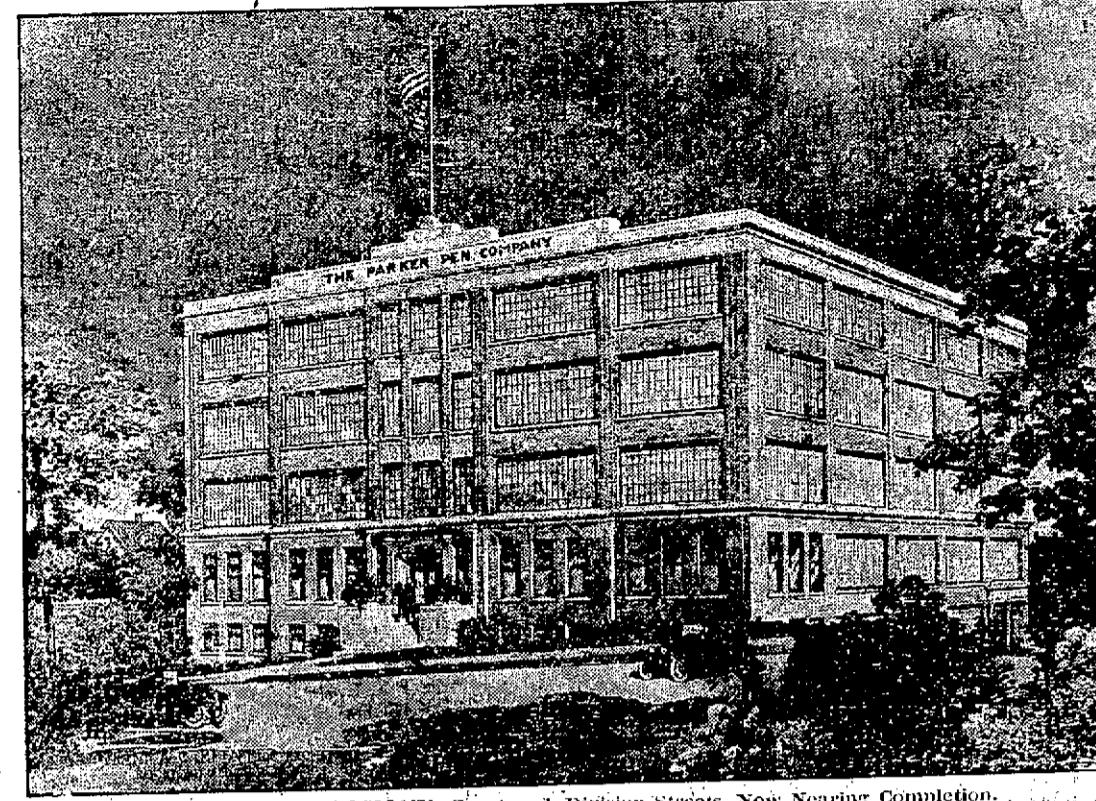

Administration Costs \$106,733

The cost of administration \$106,733, or 1.4% of total \$23,533.59 for postage, \$12,275.57 for printing and \$43,864.48 for license plates, the remainder being expressed for salaries, stationery, express, freight, etc.

Of the balance of the fund 25 per cent is apportioned to the counties for educational purposes, amounting to \$1,226,334 and 75 per cent to the state highway commission for state roads, amounting to \$2,257,100.54.

Milwaukee county will receive \$103,631.47. Dane \$35,732.67 and Rock \$25,320.61.

George Parker Didn't Like Scratches Pens So He Invented the Lucky Curve And Today He Makes 1,500,000 Yearly

NEW PARKER PEN HOME, Court and Division Streets, Now Nearing Completion.

Necessity was the father of invention for George S. Parker.

It was his sad experiences with the primitive pens when he was a telegraph teacher that prompted him to invent the pen that William Jennings Bryan, the Premier of Greece and a half dozen crowned heads now use.

From an unimportant, insignificant little company in 1901, assembling but 1,000 pens it has grown and expanded until it is now one of the three great pen companies, manufacturing 1,500,000 pens in 1920.

The tentacles of the Parker Pen company touch every civilized nation of the world. Branch houses are located in Austria, Copenhagen, Italy, London, Cuba, Philippines, New York, and Chicago. Already Germany is re-

commencing to use the Janesville pen.

peases, but because a few of the best teachers deserve and will actually earn \$125 a month, it is no reason why most teachers should not much or more. Many of the teachers can not return in value to society, but such wages, and in justice to the districts and to themselves ought not to ask such wages.

They are simply taking advantage of the situation and of the fact that some others have been hired for high effects. Be fair on both sides, should be the motto.

We are not knocking the teachers, we want them to be well paid for all services well rendered. They have a very difficult position to fill and most school districts have exacting in their requirements of a teacher. Most teachers are trying to meet the demands well, but there is a great difference in their success.

So there should be a difference in the wages paid.

We want it distinctly understood that whenever a teacher is asked to move to another city, or to another school board, we do not consider it about the school or a teacher we give a fair estimate according to all the knowledge we have of the situation.

Seriousity of help does not warrant a demand of more wages than are earned, nor for equal wages as are persons, any more or less, of equal worth, who warrants employers to cut down prices below living wages.

O. D. Antisdel.

RED CROSS HERE IS STILL WELL OCCUPIED

ONE MAN OPPOSES WATERWAY ROUTE

Superior, Wis.—Strap the Head of the Lakes with a fine tooth comb and you will find just one bitter opponent of the Great Lakes-St. Lawrence waterway project.

He is Captain Alex McDougall, dean of the Great Lakes shipbuilders, and one of the first to navigate the lakes or the St. Lawrence with a large craft.

In the current issue of the Scientific American, Captain McDougall has an article giving his reason for opposition to the St. Lawrence project. Captain McDougall favors deepening of the New York barge canal to equal the draught on the lakes.

Invents Collapsible Decks

Although the article does not say, it is reported that Captain McDougall has been working for years on some method of building a lake and canal ship. Because the barge is crossed by innumerable concrete bridges of 15 feet clearance, a ship with high decks cannot pass through it, no matter what the draught. Because of the ice on the lakes, high decks are necessary for the protection of the crew. It is said that Captain McDougall has invented a ship with collapsible decks, which he believes can safely negotiate a voyage from Duluth to New York.

The principal reasons for Captain McDougall's objections to the St. Lawrence project, as set forth in the Scientific American article follows:

Gives Ships More Room

One ship, six farm horses stand, patiently waiting the pleasure of the smith, a big dappled gray horse, and a bay were the only visitors in another.

Kansas Saves Money by Publishing School Books

Manhattan, Kansas, Nov. 10.—\$500,000 has been saved by the people of Kansas to it from the state publication of school books. Tom McNeal, member of the state text book commission, told students of the Kansas State Agricultural College here recently. "More than 100,000 books will be saved in the next three years by the state monopoly, none being published," Mr. McNeal said. "The book will sell for 50 cents a volume less than the same or similar books published by commercial houses."

Authorized on behalf of the candidates named herein by L. E. Gettle, 115 West Main St., Madison, Wis., who has paid therefor the sum of \$5.75.

Primary Election, Tuesday, September 7, 1920.

The ticket has the support of ALL REAL PROGRESSIVES. It has the support of SENATOR LA FOLLETTE, of the RAILROAD WORKERS, and of the FARMERS and LABORING MEN generally. It is the ticket of the PROGRESSIVES AGAINST the PROLIFERATES.

PROGRESSIVE REPUBLICAN CANDIDATES

Primary Election, Tuesday, September 7, 1920.

Vote For These Men.

For Governor: JOHN J. BLAINE, of Boscobel.

For Lieutenant Governor: GEO. F. CONINGS, East Claire.

For Secretary of State: ELMER S. HALL, Green Bay.

For State Treasurer: SOLOMON LEVITAN, Madison.

For Attorney General: ADOLPH KANNEBERG, Milwaukee.

For United States Senator: JAMES THOMPSON, La Crosse.

The opponents of this ticket will have outside money, just as they had in the spring campaign, when they had corruption funds from Wood, Lowden and probably others.

The Progressive Committee ran the campaign on \$5,059.23, and since an itemized account of its expenses.

THE OPPOSITION HAD \$15,000.00 from the outside, which was disclosed by testimony given before a committee of the United States Senate. They no doubt had MUCH MORE from the outside, and undoubtedly funds from WAR PROFITERS.

The Village Smithy Turns From Horses to Industry

By MARION MOORE

We heard about the passing of the horse skir, the kersev lamps, the family surrey, the old-fashioned dances, the old religion, low prices, and what not, but we've just had it impressed upon us that the high rate of speed at which the horses were going and attempted to jump which ended in their death.

Green Bay, Dr. Nehm, one of the chief proponents of the parking commission's new parking ordinance, was fined \$10 for allowing a car to stand in the restricted area in which he parked his car.

Sheboygan.—Automobile stealing seems to be a regular thing, but the passing of one wheel is a new phase of the game. J. Lorige left his car to go to lunch. He had just parked it in locating a car, but the shock came when he discovered that one of the wheels had been taken.

"How many are there?" gasped the curious one, pointing at the array. "About fifteen hundred."

"Well, if the horse ever does come into his own again," thought the cutter, much impressed by this display of foot-wear, "there's going to be some supply on hand."

Piles of iron, looking like heaps of junk, the equipment of the blacksmith shop, must be cleaned up with decreasing frequency. Of the five remaining blacksmith shops of this city, one has sold out, another does no horseshoeing, and a third reports job work and repairing as far as advance of the horse shoeing.

Only one horse left.

In one shop, six farm horses stood, patiently waiting the pleasure of the smith, a big dappled gray horse, and a bay were the only visitors in another.

Henry Ford's "Lizzie" and all the other members of the automobile family have pushed old Bobbin right out of the favor of the "fickle public. Few people keep horses, and those which are seen, are usually farm or dairy horses.

Only one horse left.
